

The 25th ANNIVERSARY of Tektronix in Guernsey

A Souvenir

TO ALL TEKTRONIX EMPLOYEES ON GUERNSEY.

TWENTY-FIVE YEARS AGO EDNA AND I AND OUR THEN THREE SMALL CHILDREN ARRIVED IN GUERNSEY.

WHAT AN ADVENTUROUS TIME THAT WAS — A TWENTY HOUR AIRPLANE TRIP FROM PORTLAND, OREGON TO LONDON — AUTOMOBILE DRIVING ON THE LEFT SIDE OF THE STREETS — SCHOOL UNIFORMS FOR THE KIDS — SHOPPING WITHOUT SUPERMARKETS OR AMERICAN BRANDS — CRICKET AND SOCCER INSTEAD OF AMERICAN FOOTBALL AND BASEBALL.

AND A JOB THAT REPRESENTED A CHANCE OF A LIFETIME FOR ME. WE HAD THE OPPORTUNITY TO PROVE THAT TEKTRONIX' PRODUCTS COULD BE MANUFACTURED IN EUROPE. AND THAT WE DID.

TEKTRONIX IN GUERNSEY HAS BEEN ONE OF THE REAL SUCCESS STORIES OF THE TEKTRONIX FAMILY. FOR TWENTY-FIVE YEARS TEK EMPLOYEES IN GUERNSEY HAVE SUPPLIED QUALITY PRODUCTS TO OUR CUSTOMERS IN EUROPE AND AT THE SAME TIME DELIVERED A HANDSOME FINANCIAL RETURN ON OUR BUSINESS INVESTMENT.

I'M PROUD TO HAVE BEEN A PART OF THE EARLY DAYS. AND IT'S FUN TO REFLECT ON THE GOOD TIMES WE SHARED HERE IN GUERNSEY.

FROM EARL AND EDNA WANTLAND.

The Opening Batsmen

TO ALL TEKS IN GUERNSEY
CONGRATULATIONS ON THE COM-
PLETION OF YOUR FIRST QUARTER OF A
CENTURY. THE OPENING BATSMEN
FOUND THEMSELVES ON A STICKY
WICKET. THOSE WHO FOLLOWED
SCORED SOME SPECTACULAR FOURS.
NOW KNOCK THE COMPETITION FOR SIX
— YOU'RE A GREAT TEAM.

CHEERS

DON & DI ALVEY, GUERNSEY.

THANK YOU. IT WAS NICE TO BE
REMEMBERED. STILL SUFFERING FROM
OUR COMMON COMPLAINT "SHEER C
AND BONE I" I DIDN'T COUNT THE
WORDS. YOU HAVE LICENSE TO EDIT
THE FOLLOWING

"IT IS A MATTER OF PERSONAL PRIDE
AND SATISFACTION TO HAVE STARTED
'OPERATION MOO' AND DEVELOPED IT
INTO TEKTRONIX GUERNSEY IN
ASSOCIATION WITH SOME FINE PEOPLE
THERE. HAVING WATCHED YOUR
PROGRESS OVER THE YEARS MAY I TAKE
THIS OPPORTUNITY TO CONGRATULATE
YOU ON YOUR TWENTY FIFTH ANNI-
VERSARY AND WISH YOU CONTINUED
SUCCESS IN THE FUTURE"

SINCERELY

AL HANNMANN, GUAM.

DEAR TEK GUERNSEY EMPLOYEES,
TIME HAS NOT DIMMED MANY FOND
AND EXCITING MEMORIES OF HARD
WORK, GOOD TIMES AND GOOD FRIENDS
ON MY FAVORITE ISLAND. WORKING
SIDE BY SIDE WITH SUCH TRULY FINE
PEOPLE WAS A PERSONAL JOY AND A
SPECIAL PRIVILEGE AS WE LAID THE
FOUNDATION FOR THE FUTURE
TEKTRONIX GUERNSEY. THOSE 4½
YEARS WERE UNQUESTIONABLY THE
HIGHLIGHT OF MY ENTIRE BUSINESS
CAREER.

CONGRATULATIONS TO ALL ON YOUR
25th ANNIVERSARY AND BEST WISHES
FOR YOUR CONTINUED SUCCESS IN THE
YEARS AHEAD.

WITH DEEPEST REGARDS,

DAVE AND JOYCE SPINK — PORTLAND.

A look back

The 25th Anniversary of the establishment of the Tektronix manufacturing facility in Guernsey, marks an occasion for celebration by all our staff.

Guernsey was Tektronix Inc.'s first overseas venture and the early period demanded a high degree of frontier spirit.

Many of our first employees had a fair idea of what was required of them. Many more joined with a high level of enthusiasm only.

People development was in the able hands of Dave Spinks for Assembly functions and Earl Wantland in the technical areas. Don Alvey set up the Marketing operation and Al Hannmann had the overall responsibility of getting the whole facility off the ground.

Development

The enthusiasm and determination of everybody was both required and exhibited. Leadership qualities were quickly recognised as departments were rapidly developed in Manufacturing, Materials, Accounting, Shipping, Order Processing and in other support groups.

People

Many of our current work force were not yet born when operations commenced. However, all the new employees over the years have played a vital role in sustaining and continuing the development of the Guernsey operation.

Our current capability and potential contribution to Corporate planned direction is made possible by our most valuable asset — people.

From Val Davison, our first local recruit, who joined on September 9th, 1958 to Martine McCallan, who joined us to work in Assembly on January 3rd, 1984.

Evolution

We have experienced many changes in product build, product content and product capability. Build practices have changed with requirement.

Manufacturing plants have been established at Heerlenveen, Hoddesdon and Japan. European distributors

have been largely replaced by Tektronix Marketing companies.

Micro technology has replaced many components like vacuum tubes, selenium rectifiers, ceramic strips and large electrolytic capacitors. Large metal chassis have been replaced by circuit boards.

Much of the skilled but repetitive functions in the Assembly areas have been replaced by component sequencers, automatic-component-insertion machines, wave soldering and automatic board washing facilities.

Instrument testing is performed with the advantage of Component and Instrument automatic testing equipment.

Improved accuracy of automatic equipment supports the requirement, and dedication to provide our customers with a quality level that reaches their expectations.

Quality

It is difficult not to look back at the heady days, when Tektronix oscilloscopes had little or no competition in the fields of performance and quality. The development of technology as it relates to our instruments has been tremendous with the passage of time.

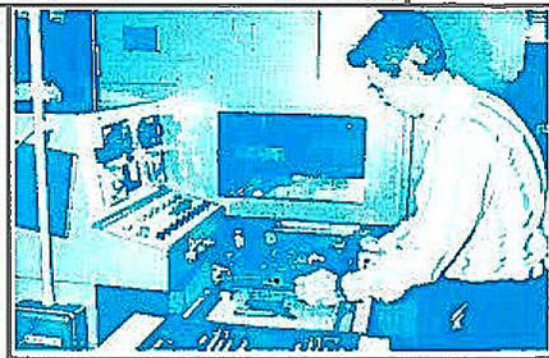

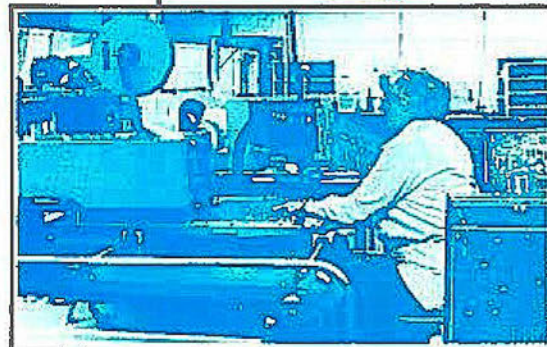

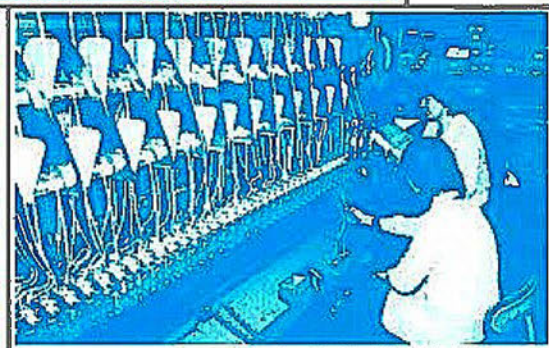

Over recent years, we have been joined in the measurement market by competition new to this field.

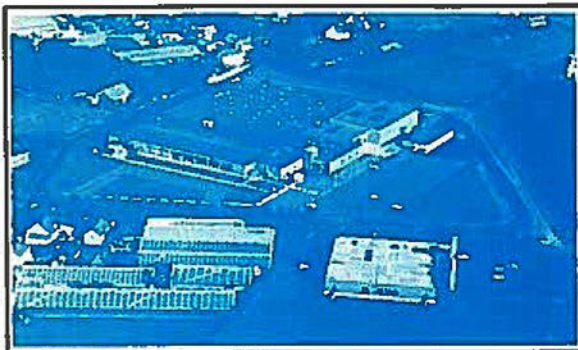

Our products enjoy a world-wide name for excellence of performance and reliability. Tektronix Inc. has nearly four decades of specialized experience in engineering products, often anticipating market requirements.

With Tek Inc.'s wealth of experience, the position of "FIRST IN THE FIELD" continues to be made manifest by the performance of our current products.

Quality, unlike performance, cannot be designed into an instrument. Quality and reliability are features that are 'Built in', contributed to, by all of Tektronix personnel.

The importance of component selection, handling and build, assembly construction and finished instrument testing, is appreciated as being critically paramount. Our determination to maintain the Pennant of Quality Leaders in the Field will be a major factor in our sustained development.

Product quality is the base necessity. Credibility in the sum of all external transactions required to manufacture and market our product, completes the requirement — Company quality. This will ensure that the name Tektronix remains synonymous with Quality. To plagiarize a well worn theme — what the people think about you — they think about Tektronix.

Guernsey Picture

We have what is probably a unique set of situations. The assembly and technical departments enjoy an average group length of service of between 12 and 14 years. Many of the support functions have a group average length of service of 20 years. This broad wealth of experience provides a solid base to face the challenges of tomorrow.

The quality of team-work dictates the end-score. We have a useful team with a good standard of team work.

With all players fighting for team promotion, we are quietly confident that the service levels of Guernsey built instruments are sufficient to tell the world that we are batting in a major league.

Cheers

Congratulations to all our staff. Seemingly, our Silver Jubilee has arrived quickly. SO FAR SO GOOD. We have no reservations about the quality of our people, our product, or of our future. Let us start writing the history that will provide ample copy for the compiler of our GOLDEN JUBILEE brochure in 2009 A.D.

Jubilee Competitions

Congratulations to all entrants for the various in-house competitions. These have all been concluded except the following.

BIRD BRAIN OF BRITAIN (I.Q. TEST NO. 1)

This quiz was over subscribed. Many of us had difficulty reading the test paper — it was in joined-up writing. This will be held over until our Golden Jubilee.

PARAGON OF INEPTITUDE (I.Q. TEST NO. 2)

The competition for this magnificent trophy has been modified. The sub-committee, elected by the many

entrants, proved incompetent to organise the event and were duly awarded the trophy.

THE WAIST OF TIME (QUANTITY SURVEY)

The finals are now scheduled to be completed at the Guernsey Corporation offices. The collapse of the office block used for the preliminary rounds has not deflated the seekers of this accolade.

(Local congratulations have flooded in. The following, from a mate of Ebenezer Le Page, was chosen for publication. The other one was thrown away.)

We wasn't all dat chuffed us
In nineteen fifty yate
When a firm called the textronics
Sprang up by the track lane gate.
We'd never yerd of dem befaw
The name was unfamiler
The yankees there made TV screens
or somethin pretty simler.

We wasn't keen to work there
Cos they made you take a test
They asked you flippin questions
Then-only hired the best.

We said they wouldn't last long yer
Peraps a yer or two
Then a red bricked building sprang up
N'yer the airport and the zoo

We still viewed them suspiciously
But as their numbers spread
They wasn't bad to work for
(or so we yerd it said).

We yerd they made oscilloscopes
With things called trace and beam
But we wasn't much impressed us
Til they formed a euchre team.

It seemed that they was yer to stay
And felt we should admit
That reely, for our island,
Well, we sponse they've done a bit.

So twenty-five yers later.
We gurns says "wot the eck"
Wer getting used to you now eh
Wer glad you came yer TEK.

TEK GUERNSEY HAS A JUBILEE
A TIME TO PAUSE AND PRAISE
OUR LEADERS OUT IN BEAVERTON
FOR RECOGNISING WAYS
TO CULTIVATE THIS CHANNEL ISLE
AND INTRODUCE TEKTRONIX

TO ALL TEKTRONIX GUERNSEY LTD
EMPLOYEES

Congratulations on the completion of your
first 25 years of business and all best wishes
for a prosperous future. Thank you for your
ready co-operation in maintaining a harmoni-
ous and friendly relationship in our contacts
during the whole of that period.

Don Paint & all at Guernsey Customs &
Immigration.

FROM: JIM GOWAN, TEK EUROPE
ON THE 25TH ANNIVERSARY OF MANUFACTURING CAPABILITY ON GUERNSEY, PLEASE ACCEPT MY SINCERE CONGRATULATIONS FOR ACHIEVING THIS MILESTONE WHILE CONSISTENTLY MAINTAINING THE HIGH TEK IMAGE FOR QUALITY.

MY FOUR YEARS OF EUROPEAN EXPERIENCE WITH GUERNSEY MANUFACTURING LEAVES AN OPINION OF GREAT RESPECT FOR THE COMMITMENT AND CONTRIBUTION BY ALL THE PEOPLE WHO HAVE MADE THE RESULT POSSIBLE AND WHO HAVE, THROUGH THAT PERFORMANCE, SERVED OUR CUSTOMERS WELL.

BEST, JIM

TO: ALL EMPLOYEES IN THE GUERNSEY OPERATION
FR. JEAN-MICHEL DUPIN

TEKTRONIX FRANCE OFTEN REGRETS THAT WILLIAM THE CONQUEROR PREFERRED TO LOOK TOWARDS ENGLAND RATHER THAN FRANCE DO YOU REALISE WHAT EFFECT THIS WOULD HAVE HAD. HAD IT HAPPENED? THE CHANNEL ISLANDS WOULD BE FRENCH AND TEKTRONIX WOULD HAVE A MANUFACTURING PLANT IN FRANCE WE WISH OUR FRIENDS AT TEKTRONIX GUERNSEY A SUCCESSFUL FUTURE.

TO: JEAN-MICHEL DUPIN
WE FULLY UNDERSTAND YOUR REGRETS. IF OUR DUKE WILLIAM HAD TURNED HIS EYES TOWARDS FRANCE, YOU WOULD BE PART OF OUR EMPIRE. THE FRENCH LANGUAGE WOULD BE AN OLD PATOIS SPOKEN IN THE PARIS BASIN AND YOU WOULD BE SPEAKING NORMAN FRENCH AS WE STILL DO HERE.
THANK YOU FOR YOUR CONTRIBUTION. WITH BEST WISHES FOR YOUR SUSTAINED SUCCESS

FROM KEITH RETALICK THARP
CONGRATULATIONS ON YOUR 25TH BIRTHDAY AND TO THINK YOU WERE SUCH A BEAUTIFUL BABY.
I HOPE BY THE TIME YOU ARE 50 YOU WILL BE AS WELL PRESERVED AS I AM.
BEST WISHES.

Guernsey's first 25 year Tekers.

Time has scored the faces of the group to a degree. It has also dispelled all delusions of adequacy, thus completing the havoc.

HIGH STANDARD OF EXHIBITION PRAISED BY H.E.

Exhibition points way ahead for the young

So interested were the Governor and the Lieutenant-Governor when he visited the stands at the Ideal Homes and Trades Exhibition at Bulwer Avenue. Here he is seen at the Tektronix stand, closely examining a complex piece of equipment. His Excellency thought highly of the exhibition. (2543/66)

FOREST TEKTR EXPANSION

"Evening Press" Reporter
ALMOST exactly four years after coming to Guernsey, Tektronix Ltd. are planning their expansion plan which will increase their staff by 500.

The first stage is a building of three "modules" initially, with a further two "modules" to be added. "We are planning to increase their staff by 500."

TEKTRONIX PLANS EXPANSION

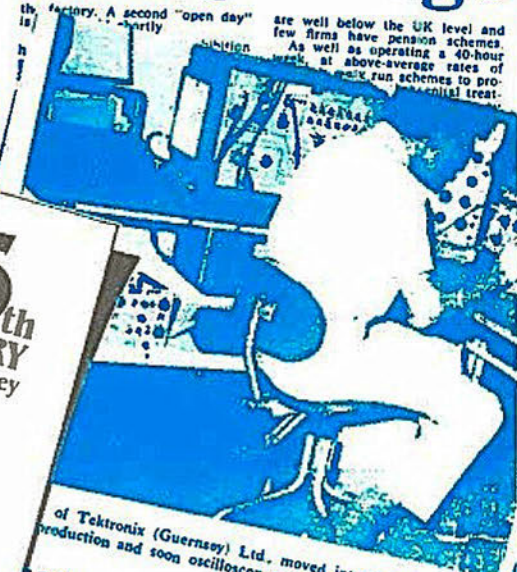

IN the island recently, was the vice-president of Tektronix, Inc., Mr. W. K. Dallas. He was here to discuss with the local trades and industry the company's plans for expansion in Guernsey. The firm's operations in the island have been since 1959, and have been steadily increasing. Mr. Dallas told an "Evening Press" reporter that when he last visited the company, there were 25 employees. "There is a very little of the available space was in use. By now just about every inch of floor space is in use and employees number 191." The successfully expanding operation is a great pleasure to the company, and Mr. Dallas said that the company's maximum building capacity is 300 employees.

NO DECISION YET ON TEKTRONIX IN GUERNSEY

ALTHOUGH the Governor of the U.S.A. is in the U.S.A. zone in Grandes Mat Road, at a corrected speed of 37 mph. For travelling in a 25 zone in Grandes Mat Road, at a corrected speed of 37 mph. For travelling in a 25 zone in Grandes Mat Road, at a corrected speed of 37 mph.

TRONIX MOVE NEW FACTORY NEAR AIRPORT

HUNDRED employees of Tektronix (Guernsey) left their work benches at Victoria Avenue at Friday afternoon for the last time. 30 yesterday morning they reported at the new factory, where all was ready. During the afternoon a convoy of lorries brought all the necessary equipment from the Victoria Avenue plant.

Mr. Dallas, who is vice-president of Tektronix, Inc., said that the company's expansion plan was to increase its staff by 500. He said that the company's maximum building capacity is 300 employees. The company's expansion plan was to increase its staff by 500. He said that the company's maximum building capacity is 300 employees.

TEKTRONIX GOOD FOR S

THERE are not many companies in Guernsey which have been in the island for as long as Tektronix. This was made clear by the company's 25th anniversary.

TEKTRONIX, Guernsey's largest high industrial concern is confident about the future. The company's expansion plan was to increase its staff by 500. He said that the company's maximum building capacity is 300 employees.
