

HELEN CLARK (CMS QC) opens packages at her Tek 20-year anniversary celebration on August 13. Her group's gift was a pair of diamond ear rings and there were many individual presents from Tek friends.

More Tek U.S. employees to receive service awards

Five Tek Beaverton employees will receive their 20-year service awards during September, reports Pat Luce (Employee Benefits).

In addition, 11 Tek's, including two from U.S. field facilities, will be awarded 10-year service pins this month.

The complete September anniversary list is as follows:

20-YEAR TEKS

September 1: **Joseph Ferris** (Transformer Engineering) and **Kev VanHoomissen** (IDD Marketing). September 8: **Milo Elkins** (465/475 Assembly). September 15: **Bill Hardin** (Accessories Support). September 22: **Ella Hansen** (Storage CRT).

10-YEAR TEKS

September 1: **Jim Harper** (Western Marketing). September 8: **Judith Paxson** (Purchasing Services). September 10: **Wanda (Sue) Langerveld** (Production) and **Orville (Ted) Springer** (Mech Component Warehouse). September 13: **Darlene Egger** (7000 HF Production). September 14: **Nancy Mowlds** (Corporate Insurance). September 23: **Theresa Bailey** (Parts Finishing). September

28: **Thomas Bohan** (Engineering Support), **Gwendolyn Jones** (Huntsville Field Office), **Robert Graves** (Plastics) and **J. Michael Egger** (Printing).

CHARLES BILLET (Tek France operations manager) celebrated his 10th anniversary in the company with this birthday cake compliments of his fellow employees at Orsay. Present for the festivities were Don Alvey, Frank Doyle and Al Graham (Tek European officers).

Tek den mother retires after 25 years

Rose Avery (Field Candidate Training), commonly known as "den mother" to our field trainees in Building 74, recently celebrated her 25th anniversary at Tek and her forthcoming retirement.

Present for the festivities was the manager who hired her at Tek 25 years ago, John Taylor (Metal Parts Manufacturing) and her present manager, Ralph Ebert (Technical Support manager). They were joined by

Board Chairman Howard Vollum and President Earl Wantland.

Rose began in Assembly back in August 1949, and transferred to the Field Engineering Training activity in 1960 where she's been ever since. Her husband Burt, also here over 20 years, is in Manufacturing Development Projects.

(A feature on the Averys appeared in the "20-year Tek Twosomes" article in *Tekweek* for December 7, 1973.)

Going-away gift from Tek friends was a gold watch plus a table heaped with cards from Rose's many well-wishers.
