

## April 10-year Tek

Only eight employees received 10-year service awards during April, the smallest group in many months. Monthly totals the last two years have averaged near the two-dozen mark and occasionally reaching the thirties.

Total 10-year employees for 1967 is now 95, with 37 in January, 25 each in February and March and eight in April. April also had a 20-year Tek, the third to receive the award. He is Howard Gault, Facilities, who celebrated his 20 years on April 16.

Manufacturing and Engineering areas accounted for all of April's 10-year Tek, with two from the Metals building, two from Warehouse and one from Assembly West and two from the Tech Center.

Names, dates and departments of April 10-year employees, as compiled by Eunice Degman, Personnel Services secretary and records clerk, are:
