

Front view shows Tektronix' 50-foot show booth for the IEEE show March 20-24, 1967 in the New York Coliseum. Twenty-two new Tek products are featured, including the 454 DC-150MHz oscilloscope. In the center of the booth is the Type 3200 digital system with the new 200-1 scopemobiles shown on the right. Photo was taken in the Assembly Cafeteria.
