Finance

**Joe
Conrad**

**Accessories,
Probes &
Packaging
Division**

Extends the capability of instrumentation by providing accessory products, advanced probing and micro-electronic processing. (Product lines include a wide range of probes and hardcopy devices.)

**Soren
Vestergaard**

**Personal
Test
Instruments
Division**

Provides cost effective, easy-to-use and easy-to-buy personal instrumentation. (Product lines include TM 500 instruments, hand-held instruments and 2200 series oscilloscopes.)

**Frank
Hermance**

**Waveform
Measurement
Division**

Extends Tek's leadership position in instrumentation for waveform measurement and analysis. (Product lines include Digitizing Signal Analyzers (DSA 600), 11000 series oscilloscopes, 2400 series oscilloscopes, and waveform digitizers.)

**Dick
Knight**

**Digital
Instrumentation
Division**

Provides instruments and systems for the design, integration, verification and test of digital electronics and software. (Product lines include logic analyzers and microprocessor development systems.)

**Jim
Zook**

**Microwave &
RF Instruments
Division**

Provides instrumentation based on microwave and RF technology. (Product lines include spectrum analyzers and microwave components.)

**Larry
Moulton**

**Measurement
Systems
Division**

Provides system components and turnkey systems for electronics manufacturing. (Product lines include TM 5000 instruments and VXI-based systems.)

**Vince
Lutheran**

**Semiconductor
Test Systems
Division**

Provides production test systems for integrated circuits. (Products include the Vista series of test systems.)
