Service anniversaries

84 mark milestones in October

Make way for 10-year anniversaries at Tek.

The number each month has increased three fold since summer and promises to climb higher the rest of the year.

October's count totals 70, one more than September, and contains six field personnel, including two from Irvine, Calif., and two from Dallas, Texas.

Twenty-year Tekers last month included nine employees; 25 years, one; and 30 years, four. Total anniversaries for October reached 84.

See the October anniversary list below, compiled by Linda Trapp (Employee Benefits). Only employee names are listed, with the exception of field personnel, because of the large volume of anniversaries and the constant departmental and job changes.
