Service anniversaries 55 attain December milestones

Fifty U.S. employees have more than Christmas to celebrate during December. These Tekers joined the company in December 1972 and are marketing their 10th service anniversary this month. Two of them are from the field (Huntsville and Rockville).

Five other Tekers also reached milestones in December. They include two 20-year employees, two 25 and one 30 (John Durecka). Total December anniversaries reached 55, five more than November but still below October's 84.

The December list below, compiled by Linda Trapp (Employee Benefits), contains only employee names, with the exception of field personnel, because of the large volume of anniversaries and the constant departmental and job changes.
