milestones

Ten-year service anniversaries continued to dominate this fall, with 48 U.S. employees observing the event in November, including two from the field. Only two employees reached the 20-year

milestone, and there were no 25 or 30-year observances.

Total service anniversaries for November reached 50, a big drop from October when 84 U.S. employees celebrated milestones, including 70 ten-year Teks, nine 20-year employees, one 25-year Tek and four 30-year employees.

The November list below, compiled by Linda Trapp (Employee Benefits), contains only employee names, with the exception of field personnel, because of the large volume of anniversaries and the constant departmental and job changes.
