- lower parts costs

more *chips* with the new low-cost
TEKTRONIX N/C EDITOR SYSTEM

Experience proves machine productivity can be increased 15% and N/C tape debugging improved 40% and more.

Consider how the TEKTRONIX N/C EDITOR SYSTEM can help you:

- Graphic displays of complex N/C tool paths in seconds.
- N/C Tape Error corrections without computer room delays and costs.
- Visual displays of N/C data and program listings in seconds.
- N/C tape prove out and program optimizing in the programming area and/or at the machine.
- Convenient, fast N/C tape duplication.
- Permanent copies of the displayed N/C tool path and program listing in 15 seconds.

TEKTRONIX also offers a complete line of Machine Controls for contour milling, turning and point-to-point positioning applications.

Your N/C engineers and servicemen know TEKTRONIX. Ask them about our product quality and service track record. For detailed product information write to Tektronix, Inc., Box 500, Beaverton, Oregon 97005.
