# TEKTRONIX®

keeps you  
in the **chips!**

with the 1791 N/C program verifier

*Are you still making NC tapes by "Try and Cut" methods on machine tools you purchased for production?*

**TEKTRONIX has a better way™** to keep you in the chips and increase your productivity in the battle against higher costs and competition.

The TEKTRONIX 1791 N/C Program Verifier gives you an instant visual preview of tool path motion before production begins—without tying up your production machines or computer facilities. Features include:

- **INSTANT GRAPHIC DISPLAY**—Tool path errors are obvious with instant graphic display of the actual machine tape.
- **FAST TAPE CHECKOUT**—Plots tool path @ 250 feet/min.
- **INSTANT ALPHANUMERICS**—Instantly lists alphanumeric block data enabling programming and translation errors to be found easier and faster than other techniques.
- **UNIVERSAL APPLICATION**—Proven compatibility with your variety of NC system formats.
- **STAND-ALONE OPERATION**—Portable, self-contained unit for low cost punched tape preparation and verification in the programming room and machine shop.
- **PERMANENT RECORDS**—Fast, low cost, dry, 8½ x 11-inch permanent copies of the 1791 programmed tool path are available with the 4601 Hard Copy Option.

In a quarter century Tektronix, Inc. has grown to over 8000 employees with \$165 million annual sales. Tektronix, Inc. has earned the reputation of pioneer and world leader in displaying scientific, engineering and production information on oscilloscopes, monitors and related products. At TEKTRONIX leadership in electronic display expertise is matched with solid financial strength and a world-wide customer support organization. With the new 1791 we lay our reputation on the line to reduce your NC tape preparation time and costs while keeping your NC machines on production jobs.

In addition, TEKTRONIX offers a complete line of Machine Controls for contour milling, turning and point-to-point positioning applications.

For increased productivity and profit **NOW**, call (503) 644-0161, Ext 7879, or for detailed Machine Control product information write to Tektronix, Inc., Box 500, Dept. MC 100, Beaverton, Oregon 97005.
