

MANUFACTURING OPERATIONS

BULLETIN NO. 13

September 27, 1965

FROM: Ken Spooner, Manager
Product Manufacturing

During the past months, we in Product Manufacturing have given a great deal of thought to the use of better production techniques and plant utilization, especially in the etched circuit board area. The increased use of etched circuitry in our instruments makes it advisable to take full advantage of this build technique and use machine processing wherever possible. To accomplish this we have ordered an automatic component insertion machine to install components presently installed by hand. This will offer a great advantage and open the door for future advances in the production process.

To establish an area where this and other projects may be undertaken, we have decided to move the etched circuit board unit, now in Plant I, to Plant IV. To continue our policies in Management Training, and because personnel must change in this move, a plant reorganization will take place.

The following responsibilities will become effective September 27 in the management of Plant I and Plant IV:

Plant I

Ross Porter, Plant Manager

Dick Haning, Plant Accountant

Loyal Strom, Plant Staff Engineer & Q. C. Manager

Ralph Karls, Staff Engineer

Wendell Ferland, New Instrument Coordinator

Jim Baker, Group Manager, Quality Control

Ken Fasching, Quality Control Coordinator

Planning Department

Marvin Wagner, Plant Planner

Jim Hardisty, Mod Processor

Roger Noyes, Group Manager, Stock

George Rickman, Group Manager, Kit Prep

Assembly Department

Paul Bennett, Department Manager

Al Hayes, Unit Manager

Dale Stuck, Group Manager, Unit Wiring

Clyde Mosher, Group Manager, Support

Howard Case, Group Manager, Unit Wiring

Clifford Wilson, Group Manager, Unit Wiring

Plant I (continued)

Assembly Department (cont)

Dave Andresen, Group Manager, Unit Wiring
Dick Jamerson, Group Manager, Unit Wiring
Wayne James, Group Manager, Unit Wiring

Test-Final Department

Hal Busch, Department Manager
Clint Parmley, Instrument Coordinator

Glenn Barth, Unit Manager
Carrol Wright, Group Manager, Test Cal & Q.C.
John Scherzinger, Group Manager, Test Cal & Q.C.
Ben Aeby, Group Manager, Final
Bill Henningsen, Group Manager, Final

Ted Buckley, Unit Manager, Custom Instruments
Karl Evenson, Group Manager, Custom Insts. Test
Cliff Brink, Group Manager, Custom Insts. Final
Dick Janowski, Group Manager, Test Cal & Q.C.

Plant IV

John Taylor, Plant Manager

Bob Fitzpatrick, Technical Assistance Manager
Chuck Baggenstos, New Instrument Coordinator
Bud McElfresh, Staff Engineer

Don Allen, Quality Control Manager
Dennis Simmons, Group Manager
Eldon Webster, Quality Coordinator

Gene Paul, Plant Accountant

Bill Hardin, Production Manager

Bob Kaufman, Planner
Harvey Candeaux, Group Manager
Bill Stout, Stock Manager
Tom Thayer, Mod Processor

Doug Thompson, Unit Manager, Etched Circuit Boards
Stan Saety, Group Manager
Lowell Cook, Group Manager
Jim Parsons, Group Manager, Component Selection
Bob Smith, Switch Repair

Everett Hobbs, Unit Manager, Accessories
Rod Binger, Group Manager, Wiring
Vince VanDomelen, Group Manager, Support
Larry Berry, Group Manager, Test & Packaging
