

Official charter for Explorer Scout post issued to Tek

STATE SENATOR Victor Atiyeh (left), Commissioner for Columbia-Pacific Council of Boy Scouts, recently presented the official charter for the Tektronix Special Interest Explorer Post to Post Advisor Russ Fillinger, Low Frequency and Biomedical Systems.

The Post presented the charter last week to President Howard Vollum (center, right picture). With Howard and Russ (third from right) are (from left) Post members Brent Hicks, Steve Sorbets, Paul Magerl, Steve Fish and Brent Mundy.

Brief ceremony held in new Tech Center

The official charter for the Tektronix Special Interest Explorer Post was presented to President Howard Vollum December 7 by Post President Paul Magerl, Beaverton high school sophomore.

The charter, issued by the National Scout office and presented earlier this year to the Tektronix Post, grants permission to the company to conduct an Explorer program.

Post members attend

The Tektronix Post is one of some 35 special interest posts in the Portland area. Members of the post will be exposed to all aspects of Tektronix and industry through a program of lectures, movies, demonstrations and field trips.

A number of Post members were present during the brief ceremony when Howard received the charter, which will be on display in the Tech Center reception area. Also present was Post Advisor Russ Fillinger, LF and Biomedical Systems.
